3. Something we are learning
4. the country tree ✓
5. Christmas supplies

Dear parents, please study the countries in the continents of Africa, Australia, Antarctica, North America, South America, Asia, and Europe. Because we will be doing some projects involving them. Please study with a map and ask questions to your child to make sure they understand. I will describe the country tree. It has a branch for each continent. It also has three owls on North America and Europe. And each group is a continent yellow is Africa, Turquoise is Asia, blue is Australia, red is Europe, purple is South America, green is North America and no one is Antarctica.

Merry Christmas,
Olivia Holden
